This schedule will update as we modify various assumptions and markets conditions change. Square footages and units set forth below are estimates only and ultimately may differ materially from actual square footages and units.

## GLOSSARY OF TERMS

Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA): EBITDA is a non-GAAP measure that means net income or loss plus depreciation and amortization, net interest expense, income taxes, gain or loss on sale of real estate and impairments of real estate, if any. EBITDA is presented because it approximates a key performance measure in our debt covenants, but it should not be considered an alternative measure of operating results or cash flow from operations as determined in accordance with GAAP. The reconciliation of net income to EBITDA for the three and six months ended June 30,2018 and 2017 is as follows:

|  | Three Months Ended June 30, |  |  |  | Six Months EndedJune 30, |  |  |  |

| Depreciation and amortization |  | 32,868 |  | 24,182 |  | 66,147 |  | 42,168 |

Adjusted EBITDA: Adjusted EBITDA is a non-GAAP measure that begins with EBITDA and includes adjustments for certain items that we believe are not representative of ongoing operating performance. Specifically, we include a pro forma adjustment to reflect a full period of NOI on the operating properties we acquire during the quarter, to assume all transactions occurred at the beginning of the quarter. We use Adjusted EBITDA as a supplemental performance measure because we believe these items create significant earnings volatility which in turn results in less comparability between reporting periods and less predictability regarding future earnings potential.
